Privacy Policy

Effective Date: April 24, 2023

1. Introduction

This Privacy Policy applies to the QB Python ETL ("App"), a personal use app. This App is not intended for public distribution or commercial use.

2. Data Collection and Usage

We do not collect or store any personal information through this App.

3. Third-Party Services

This App does not integrate with any third-party services, and as such, no data is shared with external entities.

4. Security

We take reasonable measures to protect any data related to the App, but cannot guarantee absolute security. By using this App, you acknowledge the inherent risks associated with data storage and transmission.

5. Changes to the Privacy Policy

We may update this Privacy Policy at our sole discretion. Any changes will be reflected in the updated policy, and you are encouraged to review this Privacy Policy periodically.

6. Contact Information

If you have any questions or concerns regarding this Privacy Policy, please contact developer on github @DiscoDairy
